

Swimming Pool Service Engineer

We're looking for a swimming pool Service Engineer to come and join the best in the industry! Become part of a great team of skilled people. You'll be working with high-end equipment and you'll have the opportunity to progress long term. Overtime is always available so that your earnings will reflect your hard work!

We are a technical services provider for the swimming pool industry based in the North West. Due to expansion we are looking to hire an experienced Swimming Pool Engineer. You will be joining our dedicated, hard-working team covering sites across all the UK, carrying out Pre Planned Maintenance and Service work on filtrations systems & dosing systems. Due to the location of the sites covered the successful Swimming Pool Engineer will need to be based in the North West or surrounding areas. The candidate also must have previous experience servicing all types of pool plant and equipment within the swimming pool industry of at least 3 years.
